CODE SECTION: IBC 1208.2/IRC R305.1

TOPIC: Ceiling heights for light fixtures and ceiling fans

PURPOSE/REASON: Provide acceptable headroom clearances for light fixtures and ceiling fans

INTERPRETATION: Ceiling fans shall be installed per the manufacturer's installation instructions, but based on safety concerns, fan blades should be no less than 7' from the floor measured to the leading edge of the fan blade. Light kits on ceiling fans and other electrical light fixtures shall be installed per the manufacturer's installation instructions (The building code does not address headroom clearance on these types of projections).

Approved: Chris Knight, Building Official
